Subject: Proposed Madison Ave Developments

I am concerned about the lack of low income housing available in the 5 developments being proposed. From what I can see there is little or no low "affordable" housing. Considering the density of these projects shouldn't at least 10% of the units be reasonably priced?

We have a chance to avoid what has happened in Seattle - over building without concern for all incomes resulting in a growing homeless population ...

Thank-You,

Tori
189 A Wallace Way NE
