PRODUCT DESCRIPTION

Traditional design, robust balcony built on solid square bars and heavy duty 2x2 square tubing as shown. Used mostly for commercial applications

Meets the International Building code. If properly installed exceeds code requirement of 100 lb/sf.

. FEATURES SUMMARY

- * Meets the International Building code both geometrically and structurally.

This is a proven true balcony system approved by many cities and engineers throughout the country.

- * Standard hardware is included

- * Solid pickets/balusters

- * Specs and engineering data sheets are available [upon request](#).

- * Balcony Lengths choose from: 58", 70", 82" and 106" wide.

- * Custom measuring: use the "add inches" feature to add width in inch increments. We have built up to 16' wide balconies.

- * Choose  brackets. They are not needed

if upper brackets are properly installed.

- * 1" allowance for floor extension on both available sizes 36" and 42" in depth,

- * Custom balconies and bulk orders: fill out this [estimate request form](#). (Great discounts are offered)

- * Need railings matching sections? Go to the [iron railings store](#).

- * Finish: Weatherproof double powder coated (1 year specific warranty)

- 1 st powder coat: Zinc rich primer (similar to galvanization)

- 2nd coat: Polyester high resistant powder coat.

- * Shipping: Ships FedEx Freight to all continental US

- * Choose to upgrade warranty on the finish up to 5 years.
