Charles:

Thank you for taking the time to write this letter. I am also concerned about the health of the present buffer trees since the roots of these trees were cut during construction of the bike path. I see no signs of mitigation done to improve the health of these injured trees.

Attached is a one page memo in pdf from ABC on buffer screening for Commuter Comforts and Drive through.

I will also provide a paper copy at the Planning desk in case this format has problems .

Please contact me if you have questions or when there might be further meetings on this proposal.

Thank you.
