Your project is not categorically exempt from the SAR process.

However, the project may qualify for an exemption for being small in scale. Complete the Table 1 to determine if the project scope qualifies:

Project Scope		
A. Is this a redevelopment project or new development? Redevelopment includes all construction on parcels of land existing prior to Feb 10, 1999. If your lot is not part of a recent subdivision, this likely applies to your project. Redevelopment also applies if more than 35% of the lot is existing hard surface.	Redevelopment	
B. New and replaced Hard Surface ³ area proposed (include all proposed hard surface areas in square feet)	Stairs are perv	jous
C. Total area of construction, clearing, grading, or development activity (Area of the project limits including all areas being disturbed in square feet)	230 sg.ft.	
D. Total site area (Include the area of all parcels that contain the project activity or construction; Use the area of right-of-way for road projects; in square feet)	69,696 sq.ft.	parcel size
Percentage of Site to be developed (Box C ÷ Box D × 100)	.3%	

Table 1

Then, evaluate your project scope using Table 2:

If the scope of the project is less than the thresholds listed in the table, based on your answers from Table 1, then this project is exempt from the SAR process but still required to consider the 13 elements of an erosion control plan which can be found in COBI Form B109d.

You chose for Box A:	And Box B is	And Box C is
Redevelopment	Less than 800 sq. ft.	Less than 7000 sq. ft.
New Development	Less than 1300 sq. ft.	Less than 7000 sq. ft.
