Public Comment for proposed 3-Story Hotel in Winslow by Madison Avenue Development, Inc.

Some questions: Will we have ongoing water resources from our aquifers to accommodate this large of a venture? How will increased sewer needs be met, and who will pay for any necessary upgrades. How will increased traffic, parking needs and noise impact existing residents' quality of life? What development impact fees will the developer pay?

Thank you for your attention to these concerns. As of today, I am not in favor of this 75-room proposed project.
