To: pcd@bainbridge.gov, Merry Mcallister <mcallistermerry@gmail.com>

My concern for this application is the additional traffic that will be created on an all ready busy road, North Madison. The traffic created at the beginning of the day i.e. commuters, school buses, BI Rides bus, bicycle riders and children at bus stops. This traffic then occurs again about 2:00 well into 7:00 p.m.

My concern is not only the increase of traffic (staff arriving, parents dropping off in the a.m. returning for pick up BUT the use of the private driveway directly south of the proposed entry driveway to the school. A concern also arises for the residents of the Windsong Loop neighborhood leaving and entering onto North Madison all during the day.

Given the close proximity of these three driveways creates a possible nightmare at any hour of the day or evening. Come and see.

Please give this Use Permit a well studied time and discussion with those who are involved. Come out on location, study the traffic already using this particular location, then add the schools traffic.

I am in no way objecting to the school.

The lack of a previously completed traffic study makes for many question this time around. A major concern to all involved in this neighborhood.

Do your job. Listen to all who will be affected by your decision.
