Where did the stream inventory information originate from? I cannot find a citation. The Watershed map shown on the last page of the Wetland Delineation Report does not correctly show streams in the vicinity of Miller Road. Wild Fish Conservancy has mapped many of these and they should be included. If this changes potential impacts the information needs to be updated and provided to the Tribe and WDFW for review.

Hi Alison,

The wetland mitigation report and delineation are in the Final Binder file; the other files that are in a second email are responses to some comments. There is a pending info request from the City of Bainbridge Island regarding the wetland report, just FYI. If you would like to see anything else, just let me know.

Thank you,

Annie Hillier

Would you please send me a copy of the wetland delineation report and the mitigation report.

Thanks.

Alison
