Subject: Planning commission's denial for Winslow Hotel

Ms. Wright,

As a resident of Bainbridge Island, and an admirer of the community spirit, I believe that the Planning Commission's denial for the permit was completely justified. We need to retain the overall ambiance of the downtown corridor and this design would only increase car traffic and destroy the overall charm of the surrounding area. Given the current series of construction efforts now in full development, one more large development would be a further blemish on the neighborhood feel of Winslow Ave.

I ask you to please agree with the commission and deny the effort to move this forward.

Thank you,
Larry Kida
