Subject: Hotel comments

Dear COBI staff,

Please record my comments on the "destination hotel" proposed at the west end of Winslow Way where the Bargain Boutique now has its charitable business. I see that it is slated to take up two lots and is designed to be of considerable size.

My stance is that a building of this scale has no business locating on the edge of a dense residential area close to several quiet side streets. We have two hotels/motels off of High School Road, so it seems only appropriate that this hotel should also be located in that area, not in our already crowded center of town or near residences.

Please help us keep the character of Winslow and turn down this proposal.

Thank you for your consideration,

Susan Matteson
