Subject: Bloedel Proposal
Date: Friday, August 04, 2017 3:36:30 PM

This is a letter to let you know my disapproval of the proposed plans for the Bloedel Reserve. I am a resident of the Agate Loop. These proposed plans of trying to make it possible for Bloedel to exploit what has already brought more people and cars into our neighborhood is wrong. This is a neighborhood of people walking and children waiting on driveways and corners for school buses. I was pushing a stroller with my granddaughter the other day and someone flew out of Bloedel and honked me over to the side when I was already on the edge with plenty of room to go around. This is a very rural part of the island with a small two lane road that had no lines until not that long ago. Bloedel Reserve should be kept as a quiet peaceful place to come to as it was meant to be. Bloedel is a home in our neighborhood with a beautiful garden. His plan was not for Butchart Gardens This is a small quiet neighborhood. Don't take that away from us. We already have dealt with the extra traffic brought by Bloedel that is enough!

I'm at the top of the loop close to the road, the new proposed exit would send cars right in front of my house and property which now there is no reason for cars except for school bus to come around... It will make it more dangerous on our road...

This is about \$\$\$\$ that the community will never see.
