Dear all ,

I am very concerned about the proposed development 3945 Lytle Road on the Category II critical area wetland at Lytle Creek.

Don't we have the development rules to protect active wildlife corridors ? What is the point of a much needed No-disturbance Restoration Zone if you are willing to permit a sewage pipe right through it?

We need to save the few critical areas and wildlife we have left on Bainbridge.

Please do not permit this house !
