Dear Mr Greetham,

The main reason that Bainbridge island is such a magical place is due to the amazing vistas one sees walking, biking or driving on our island. Mt Rainier from Chrystal Springs; the Seattle skyline from Murden Cove; Mt Baker from the Bloedel Reserve AND probably the best: the Olympic Mountains from Manzanita Road. When I first saw this view while cycling the Chili Hilly bike ride in 1995, I was so enchanted that I decided to buy a historic Bainbridge home near that spot.

This vista, the Olympic Mountains as seen from Manzanita Road would be destroyed, if the planned 240 ft dock would be built. The dock and boats would be directly in front of this truly magnificent view. A view that would be lost to countless islanders and visitors alike for generations to come.

Every effort should be made to NOT allow the construction of this dock to happen. It only gives marginal gain to the two residents making the proposal, but reduces the beauty of our island irrevocably. A magnificent view (especially at sunset) that thousands of us will lose.

I and my wife Paula are strongly opposed to this project.
