Subject: Against Winslow hotel proposal

I am still finding it hard to believe that this is still a topic for discussion. We do not need a 98 room hotel in Winslow. The architects and developers need to get over their greed at the cost of the island. If they get their way it will only be a matter of time that we end up like Manhattan. We must say "NO" to big development and maintain what we can of "island living". Please do not succumb to thier pressures.

Thank you, Carlene Botkin
