Subject: The "Grand Hotel"

Dear Ms. Wright,

I am not categorically against development. I realize that it's inevitable, especially in a desirable location such as prime Winslow, and the rest of our beautiful island.

I do, however, believe that the scale of development should honor the nature of the location and the community.

Therefore, I strongly urge you to agree with the Planning Commission, and that this project should not go forward. Luxury, big-deal hotels have their place, but surely not here on our beloved island.

Thanks so much for reading my email.

Sincerely,
Paul Sanders
