Subject: Hotel on Winslow Way West

Ms. Wright,

The Planning Commission's exhaustive review of the proposed hotel shows that it would change the nature of downtown Winslow (and beyond) in ways that are anathema to COBI's stated vision for Bainbridge Island's future. While I have been apprehensive about the impact of this project since learning about it, I haven't had specific information to support its rejection until the Planning Commission's report. I urge you to support the Commission's denial of the hotel's application.
