Subject: Dock proposal comment PLN50280C SSDP & SVAR

Good day.

I have lived at 12490 Manzanita Road for 3 years now... When I moved to BI from Los Angeles 9 years ago, this was my dream location. The stars aligned and here I am.

For 18 years, I have been a Realtor, selling high-end real estate, in CA & WA. I know that clients sometimes have ideas about "improvements" and I ALWAYS recommend they confirm with the city/state/local ordinances before counting on making major changes to land/structures.

The proposal in front of us for installing a 240 FOOT dock with 2 boat lifts in LITTLE Manzanita is ABSURD & SELFISH!

This precious bay is NOT where LARGE boats belong... This bay is home to many ENDANGERED species, INCLUDING SALMON which come here to spawn each fall. Such a structure would not only be an Eye-Soar but would prevent the natural flow of the sea which supports the historic runs for these iconic animals in our region.

The Puget Sound is an every changing landscape. Our starving Southern Resident Killer Whales manifest that our human greed and irresponsibility stretch far beyond our shores and into the waterways of the Earth.

WE STRONGLY OPPOSE THE PROPOSED BUILDING OF SUCH A DOCK & LIFTS. Please reject this destructive project in Manzanita Bay...

WE NEED TO PROTECT THE NATURAL BEAUTY OF THIS GORGEOUS ISLAND AND IT'S SURROUNDING WATERS!

Thank you for your consideration.

Kimberly & Rain Malzahn
