Bruce, it will be fine to accept the traffic impact analysis during the 28-day completeness review period. However, we will not deem the application complete until that report is received.

Subject: Winslow Hotel and traffic study

Peter,

Heath & Associates work has been underway on the traffic study for the Hotel. I have scheduled an intake for the hotel for Site Plan Review and Conditional Use on December 20th. Heath and Associates are telling me they won't be ready by the 20th, but I fully expect to have their report within the City's 30 day time frame to declare the permit submittal "complete".

We lost a bit of time between when I submitted their proposal to the City on November 15th, and receiving the go ahead from the City as to scope on the 27th.

I want to confirm that you'll be OK with this and I can keep my scheduled intake date.
