Subject: Proposed hotel for Winslow Way

Dear Heather Wright, I am writing to let you know that this proposed hotel is not something I support in the location currently under consideration. I have written prior on this subject and attended the public comment meeting held in June.

I live in the area of this hotel and can tell you that a project of this size and dimension is not in keeping with the community surrounding the property. In order for the hotel to break even they need at least 92 rooms. This explains the jump in number of rooms as this project has progressed.

I understand the current zoning is for a 15 room hotel so this far exceeds that.

If you live in this area you know the road is not able to accommodate the amount of increased traffic this project will bring. The issue of parking has been brought up numerous times and there is still no clear explanation given to the local residents that this project can handle this issue.

This neighborhood is made up of many homes and we are very quiet from 6 PM until 7 AM Monday through Saturday with no business activity in the evenings disturbing the residents. We are also free of business activity on Sundays. The hotel will bring 24/7 noise and activity to our residential life.

While this is a beautiful project and though I'm not convinced Bainbridge is in need of all this, it definitely is the wrong location.

Please refer to my previous email sent to Olivia Sontag that outlines the concerns in more detail. It is clear that the Planning Commissioners heard the resident's concerns and their denial is well founded. I encourage you to consider all the input residents have provided and issue a denial of this project.

Thank you for your attention to this message.

Respectfully submitted,  
Charlene Moy
