#### CITY OF BAINBRIDGE ISLAND

ENVIRONMENTAL (SEPA) CHECKLIST - UPDATED 2014 FORM MUST BE COMPLETED IN INK, PREFERABLY BLUE PENCIL WILL NOT BE ACCEPTED

# City of Bainbridge island

Bainbridgenistand017

Planningand Communit/Development

# PLEASE READ THE FOLLOWING CAREFULLY BEFORE TO THE CHECKLIST

# Purpose of checklist:

Governmental agencies use this checklist to help determine whether the environmental impacts of your proposal are significant. This information is also helpful to determine if available avoidance, minimization or compensatory mitigation measures will address the probable significant impacts or if an environmental impact statement will be prepared to further analyze the proposal.

# Instructions for applicants:

This environmental checklist asks you to describe some basic information about your proposal. Please answer each question accurately and carefully, to the best of your knowledge. You may need to consult with an agency specialist or private consultant for some questions. You may use "not applicable" or "does not apply" only when you can explain why it does not apply and not when the answer is unknown. You may also attach or incorporate by reference additional studies reports. Complete and accurate answers to these questions often avoid delays with the SEPA process as well as later in the decision-making process.

The checklist questions apply to <u>all parts of your proposal</u>, even if you plan to do them over a period of time or on different parcels of land. Attach any additional information that will help describe your proposal or its environmental effects. The agency to which you submit this checklist may ask you to explain your answers or provide additional information reasonably related to determining if there may be significant adverse impact.

#### **Instructions for Lead Agencies:**

Please adjust the format of this template as needed. Additional information may be necessary to evaluate the existing environment, all interrelated aspects of the proposal and an analysis of adverse impacts. The checklist is considered the first but not necessarily the only source of information needed to make an adequate threshold determination. Once a threshold determination is made, the lead agency is responsible for the completeness and accuracy of the checklist and other supporting documents.

#### Use of checklist for nonproject proposals:

For nonproject proposals (such as ordinances, regulations, plans and programs), complete the applicable parts of sections A and B plus the SUPPLEMENTAL SHEET FOR NONPROJECT ACTIONS (part D). Please completely answer all questions that apply and note that the words "project," "applicant," and "property or site" should be read as "proposal," "proponent," and "affected geographic area," respectively. The lead agency may exclude (for non-projects) questions in Part B - Environmental Elements –that do not contribute meaningfully to the analysis of the proposal.

Department of Planning and Community Development 280 Madison Avenue North • Bainbridge Island, WA • 98110-1812 Phone: (206) 842-2552 • Fax: (206) 780-0955 • Email: pcd@bainbridgewa.gov www.ci.bainbridge-isl.wa.us

LEFT COLUMN TO BE COMPLETED BY APPLICANT.

Community Development

FOR STAFF USE ONLY

Bainbridge Island

A. background

1. Name of proposed project, if applicable: CONTROCT WATER WELL

2. Name of applicant: JOANNE GOETHALS/EMERALD

3. Address and phone number of applicant and contact person:

5400 DIAMEND PLACE BAINBURGE IS 98110

200 842 2384

4. Date checklist prepared: 21 NOV 2014

5. Agency requesting checklist: PLANJULA, CITY OF B.E.

6. Proposed timing or schedule (including phasing, if applicable):

7. Do you have any plans for future additions, expansion, or further activity related to or connected with this proposal? If yes, explain.

NO

8. List any environmental information you know about that has been prepared, or will be prepared, directly related to this proposal.

PREVIOUS TO THIS PROPOSAL: WETEND DELIN.

9. Do you know whether applications are pending for governmental approvals of other proposals directly affecting the property covered by your proposal? If yes, explain.

DEC - 2 2014

Dept. of Planning & Community Development

10. List any government approvals or permits that will be needed for your proposal, if known.

KITSAP COUNTY (FEALTH DIST.

DRILLING PERMIT

11. Give brief, complete description of your proposal, including the proposed uses and the size of the project and site. There are several questions later in this checklist that ask you to describe certain aspects of your proposal. You do not need to repeat those answers on this page. (Lead agencies may modify this form to include additional specific information on project description.)

PUT GRAVEL FILL ON HISTORIC FILL TO CREATE
ALEUEL PAD DRILL 8" WATER WELL, PROMB
NEW WELL TO EXISTING WATER SYSTEM BUILD
SMALL COVERING BOX OVER WELL HEAD &
PLUMBING & WIRING.

12. Location of the proposal. Give sufficient information for a person to understand the precise location of your proposed project, including a street address, if any, and section, township, and range, if known. If a proposal would occur over a range of area, provide the range or boundaries of the site(s). Provide a legal description, site plan, vicinity map, and topographic map, if reasonably available. While you should submit any plans required by the agency, you are not required to duplicate maps or detailed plans submitted with any permit applications related to this checklist.

ADDLESS: 7512 BAKER HILL ROAD, BAINBRIDGE ISLAND, WA

#### **B. ENVIRONMENTAL ELEMENTS**

#### 1. Earth

a. General description of the site (circle one): Flat, rolling, hilly, steep slopes, mountainous,

other	
Other	 

FOR STAFF USE ONLY LEFT COLUMN TO BE COMPLETED BY APPLICANT. b. What is the steepest slope on the site (approximate percent slope)? 0% c. What general types of soils are found on the site (for example, clay, sand, gravel, peat, muck)? If you know the classification of agricultural soils, specify them and note any agricultural land of long-term commercial significance and whether the proposal results in removing any of these soils. WETHAND SOILS, GRAVEL FILL d. Are there surface indications or history of unstable soils in the immediate vicinity? If so, describe. NONE e. Describe the purpose, type, total area, and approximate quantities and total affected area of any filling, excavation, and grading proposed. Indicate source of fill. 32 TONS OF PITRON GRAVEL FROM LOCAL PIT SPREAD ON EXISTENCY FILL TO LEVEL AN ALEA 10'X 30' f. Could erosion occur as a result of clearing, construction, or use? If so, generally describe. 110 g. About what percent of the site will be covered with impervious surfaces after

NO CHANGE

project

construction (for example, asphalt or buildings)?

LEFT COLUMN TO BE COMPLETED BY APPLICANT.	FOR STAFF USE ONLY
h. Proposed measures to reduce or control erosion, or other impacts to the earth, if any:	A
2. Air	
a. What types of emissions to the air would result from the proposal during construction, operation, and maintenance when the project is completed? If any, generally describe and give approximate quantities if known.	A
b. Are there any off-site sources of emissions or odor that may affect your proposal? If so, generally describe.	10 10 10 10 10 10 10 10 10 10 10 10 10 1
	egasir ingas, 8
c. Proposed measures to reduce or control emissions or other impacts to air, if any:	
NONE	A
3. Water	rijeka sjilok pe
a. Surface Water:	Joseph Augustia
1) Is there any surface water body on or in the immediate vicinity of the site (including year-round and seasonal streams, saltwater, lakes, ponds, wetlands)? If yes, describe type and provide names. If appropriate, state what stream or river it flows into.	A
WITH WATER (STREAM) FLOWING THRU IT	\ \tag{\chi}

2) Will the project require any work over, in, or adjacent to (within 200 feet) the described waters? If yes, please describe and attach available plans.

WELL WILL BE ROCATED WITH IN

A

3) Estimate the amount of fill and dredge material that would be placed in or removed from surface water or wetlands and indicate the area of the site that would be affected. Indicate the source of fill material.

NONE

A

4) Will the proposal require surface water withdrawals or diversions? Give general description, purpose, and approximate quantities if known.

NONE

A

5) Does the proposal lie within a 100-year floodplain? If so, note location on the site plan.

1

6) Does the proposal involve any discharges of waste materials to surface waters? If so, describe the type of waste and anticipated volume of discharge.

None 15 Expect Houses

### b. Ground Water:

1) Will groundwater be withdrawn from a well for drinking water or other purposes? If so, give a general description of the well, proposed uses and approximate quantities withdrawn from the well. Will water be discharged to groundwater? Give general description, purpose, and approximate quantities if known. THIS PROJECT IS ALL ASSUTE

WITH DRAWING GROWNS WHITE FOR A PUBLIC WATER SYSTEM 8"DIA, GO'DEST NO. SUGPIN NO DISCHARGE TO GROUND WATER

2) Describe waste material that will be discharged into the ground from septic tanks or other sources, if any (for example: Domestic sewage; industrial, containing the following chemicals. . . ; agricultural; etc.). Describe the general size of the system, the number of such systems, the number of houses to be served (if applicable), or the number of animals or humans the system(s) are expected to serve.

NO WASTE DISCHARGE

# c. Water runoff (including stormwater):

1) Describe the source of runoff (including storm water) and method of collection and disposal, if any (include quantities, if known). Where will this water flow? Will this water flow into other waters? If so, describe.

NO CHAWGE

2) Could waste materials enter ground or surface waters? If so, generally describe.

STALL AMOUNT OF MUDAY WATER COULD ENTER SURFACE WATER DURING WELL DRILLING

b. What kind and amount of vegetation will be re	emoved or altered?
c. List threatened and endangered species known	to be on or near the site.
	l

# FOR STAFF USE ONLY LEFT COLUMN TO BE COMPLETED BY APPLICANT. d. Proposed landscaping, use of native plants, or other measures to preserve or enhance vegetation on the site, if any: Some frantiace OF NATIVE SHRUBS TO MITIGATE WORK e. List all noxious weeds and invasive species known to be on or near the site. NOT KNOWN FOR SURE CANARY REED GRASS ? 5. Animals a. List any birds and other animals which have been observed, or are known to be on or near the site. Examples include: birds: hawk heron (eagle) songbirds, other: DUCKS mammals: deep, bear, elk, beaver, other: COYOTE fish: bass, salmon, trout, herring, shellfish, other: b. List any threatened and endangered species known to be on or near the site. NONE c. Is the site part of a migration route? If so, explain. UNKNOWN d. Proposed measures to preserve or enhance wildlife, if any: NONE e. List any invasive animal species known to be on or near the site. NONE

#### 6. Energy and natural resources

a. What kinds of energy (electric, natural gas, oil, wood stove, solar) will be used to meet the completed project's energy needs? Describe whether it will be used for heating, manufacturing, etc.

ELECTRIC POWER FUR LIGHTS, HEAT, PUMPINSER A

b. Would your project affect the potential use of solar energy by adjacent properties?

If so, generally describe.

c. What kinds of energy conservation features are included in the plans of this proposal?
 List other proposed measures to reduce or control energy impacts, if any:

NONE

NONE

#### 7. Environmental health

past uses.

a. Are there any environmental health hazards, including exposure to toxic chemicals, risk of fire and explosion, spill, or hazardous waste that could occur as a result of this proposal? If so, describe.

Describe any known or possible contamination at the site from present or

A

2) Describe existing hazardous chemicals/conditions that might affect project development and design. This includes underground hazardous liquid and gas transmission pipelines located within the project area and in the vicinity.

A

EFT COLUMN TO BE COMPLETED BY APPLICANT.	FOR STAFF USE ONLY
3) Describe any toxic or hazardous chemicals that might be stored, used, or produced during the project's development or construction, or at any time during the operating life of the project.	A
4) Describe special emergency services that might be required.	A
5) Proposed measures to reduce or control environmental health hazards, if any:	A
Noise	a Challesty.
1) What types of noise exist in the area which may affect your project (for example: traffic, equipment, operation, other)?	A
2) What types and levels of noise would be created by or associated with the project on a short-term or a long-term basis (for example: traffic, construction, operation, other)? Indicate what hours noise would come from the site.	A
SHORT LONG PAYS OF DRILL RIG NOISE	a lawres of sales and a
3) Proposed measures to reduce or control noise impacts, if any:	D-hours of operation
Land and shoreline use	
What is the current use of the site and adjacent properties? Will the proposal affect current land uses on nearby or adjacent properties? If so, describe.	a purition of directions for the
