Dear Commissioner,

Please, Please **Do Not** approve the building of this huge hotel. It is a big mistake and will not be good for the down town. I worry about the 4 senior buildings that will be impacted by the noise, air pollution and traffic that will make living there for them not only hazardous to their health, but also to them physically since most of them do not have cars and walk around down town. I am worried about the water situation, since you have approved so many big projects recently. Is **our water supply** going to be sustainable for the foreseeable future? I have talked to over a hundred people about this situation in my neighborhood, at the gym, at my vegan islander party and at church and out of all those people there was only 1 man who thought the hotel might be a good idea. Please listen to the people who live here. We will be the ones, who will have to live with your decision or will be forced to move away. Your decision on this hotel will negatively impact this down town area that is already impacted by tourist on the weekend. I'm not sure why this property is still being considered, since the Planning Commission had already denied the application! The community is counting on you to do the right thing and reject the building of this hotel. Thank your for taking the time to listen to my plea.

Sincerely,

Sharon Burris
