Dear Mike, Jim, and Bruce,

Thank you very much for asking to meet with those of us who live to the west of the Winslow Hotel. We appreciate your reaching out. We know that you've made changes to the design since you submitted your application to the city and we're looking forward to seeing the changes.

We recently submitted a list of conditions that we're hoping the city will incorporate into the CUP, based on your earlier plans. We believe these conditions will mitigate some of the congestion, parking and noise concerns we foresee in downtown Winslow.

We look forward to learning more about your plans and discussing these concerns in our upcoming meeting.

Best,

Robin Simons
