City of Bainbridge Island

OCT 28 2016

Dear Mr. Maehlen

Planning and
Community Development

We are sisters and students that attend Madrona. We have been going there for 10 years. We are excited about the opportunity to build a permanent campus at Lowery Farm. We think it is beneficial for Bainbridge Island to offer diverse options for education. Madrona is not your standard school in the sense that- we move through the grades with the same class and Teacher from first to eighth grade. We have built strong relationships and longlasting, loyal friends over the years. We know that Madrona School will be respectful and kind to the community living around us and

Bainbridge Island as well.

Sincerely,

Rose and Gal Cole
