Subject: Madrona School

Again I have NO concern about the schools use of the property.

I know the ideals of this school hold the land to be used in accordance with those of us that believe in Mother Earth.

The objection which I do still hold fast to is the known traffic congestion that will occur on Madison Ave. Consideration must be made to the entrance of a private driveway across from Windsong Loop and the entrance to our neighborhood. This will occur when ever the school has events. Most important is on a daily routine of private cars dropping off and picking up children at the time of already heavy traffic, commuters, Public school buses, the Access bus, delivery trucks and general use of Windsong Loop entrance traffic.

Be mindful that Madison Ave is a Two lane road with a bicycle Lane on the East side. In the morning this lane is also used by people walking their dog, runners and walkers as well.

Best of Luck to all who will consider the future use of this congested location on Madison Ave. Windsong Loop and ???
