Subject: Bloedel access and expansion plans - public comment

We love and support the Bloedel Reserve. We live just 2 driveways down from the Bloedel entrance. I do support Fritz von Ibsch observations and most definitely object to bringing in tour buses. This is a quiet residential neighborhood that has public transportation access directly from the ferry by way of Kitsap bus service or BI Ride Shuttle. The addition of large tour buses would be an unwelcomed addition to the neighborhood.
