Hello,

I am concerned about a development on wetlands on the island (3945 Lytle Road). As this area is considered a Critical Area since it is a category II Wetland as well as an active wildlife corridor, I oppose the development of this site. Additionally, this project would put a sewage through a No-disturbance Restoration Zone and may impact water quality downstream. Please protect the environment and enforce the environmental protections we have.

Regards,

Nora Carlson
