Subject: Wardwell Rd NE/Bucsit Lane Drainage Improvements PLN50376 SUR

I received notice of application/SEPA comment period and would like clarification that the proposed changes in water runoff will **not** go north down Wardwell Road but will be directed east down Wardwell. There is already considerable runoff from the properties from McRedmond to the north that has impacted properties and diversion of any water in a northerly direction could contribute further to this problem.

Thanks in advance for your attention to this matter,
Sincerely,
Shannon Gentry
