Subject: Madrona School Permit

I vote NO to have a school constructed in our residential neighborhood. Why are we not insisting on more condensed development in Winslow where there are empty locations vs adding stress to a rural feeling neighborhood.

I would be living across the street from this proposed new location for Madrona School and already it is frustrating to commute to and from work on the ferry during the school year because the light at Sportsman and 305 already takes several changes before I can get through.

I am concerned about the wait to get through the stop sign at Madison and Valley (and I would NOT want it replaced with a light because that starts making it more of a city, which is one of the reasons i live on the Island, to get away from the city).

I like that it is dark at night, and am not sure if there would be night lights on. And of course, no one wants to live next to a big construction when they just bought a house in a quiet established neighborhood.
