I think we can accommodate a bus stop at the extreme north edge of our frontage on Madison. We want to stay well back from the corner to both accommodate the water feature we're proposing, and also future construction of the roundabout.

Hello,
I'll try to find out when public works expects to have their comments / recommendations in. Do you have any more thoughts on the bus stop?

Thank you,
Kelly

Kelly, good meeting yesterday. Our intention is to act on the recommendations made by the Board and have them documented for the Planning Commission meeting. That should not take much time.

To that end, what is our likely date for a Planning Commission meeting?
