Subject: Madrona School, Lowery Farm building proposal

Josh Machen,

I am writing to give a positive input for the Madrona School building project hoping for conditional use permit approval at Lowery farm. My wife and I are residents of the Island, business owners on the Island, and parents of 2 Madrona children. I believe the new school would be a great step forward for both Bainbridge Island and Madrona school. Our kids will have graduated prior to being able to use the proposed school, however it is still very important for me to write this letter. The land at Lowery farm would be used in a environmentally friendly manner, if the school is allowed to build. The kids would be afforded a much better environment for learning and using the outdoors to further their Waldorf learning style. The proposed plan is considerate of the neighbors and involves much less impact than building a neighborhood or other type of development. Please approve the conditional use building permit for the new Madrona School at Lowery farm.

Sincerely

Andrew Fiscus
