Please uphold the trust the public has in you to protect the integrity of this island and DENY the construction permit on this no-disturbance restoration zone!

Our wetlands are protected for Many good reasons! This is made clear in chapter 16.20 on critical areas. There is NO reason to make an exception for individual financial gain!

Once the damage is done to these sensitive areas there is no turning back! We have a unique area here on Bainbridge, please help protect what little is left of it!

It would NOT be REASONABLE to grant this permit! Please do the right thing and DENY it!

thank you-
