Subject: Madrona School Proposal

This is a question for Josh Machen about the progress of the Madrona School Proposal. I seem to be the neighborhood conduit for information , and I have had none for a long time. Can you tell me the status of the proposal , and how neighbors can continue to voice their objections?

I've had a couple of meetings with the school administrators, and they did not convince us that their school would be an asset to the neighborhood. My neighbors would rather have 3 mc mansions than a school.

Thanks,
Merry McAllister
