Subject: Winslow Hotel Hearing

I hope you will support the decision of the Planning Commission concerning the Winslow Hotel and recommend the application be denied when presenting it to the Hearing Examiner for determination of the application. The city's Comprehension Plan and Winslow Master Plan does not support a full-service hotel being built on the selected site nor does a hotel of this size complement the neighborhood where it is to be built. I believe the construction of this large structure could possibly cause current zoning ordinances to be continually reviewed for modification if structures such as this hotels or other large commercial buildings would be built in this area of Winslow.

Again, I hope you will support denying this application.

Marilyn Engelbrecht
Winslow Resident
