**Subject:** No Hotel /condos

Why would the city spend thousands on environmental studies issues and then throw caution to the wind and support this monster hotel!!?!?

Oh and could this developer be planning to convert this (and other hotels and developers) into condos???

Who doing the city's hiring? Who is pulling strings?

It's obvious that COBI's decisions are being made based on \$\$\$\$ and is not  
Listening to the voice of the  
B. I. residents who are screaming...not whispering.

**Hotel = Winslow HELL**
