Thank you Ellen. In compliance with #5 of the conditions of approval, I have attached a revised site plan that shows the antennas meet the setback requirements. This site plan is extracted from the construction drawings submitted with the BP application and shows the actual number of antennas and associated equipment to be installed on the tank, even though the CUP is for up to 12 antennas.

stay safe!

Hi Nancy,

I will check on the Zoom link to the Hearing Examiner hearing for you. It doesn't come from Lara. There is one posted here: <https://www.bainbridgewa.gov/Calendar.aspx?EID=3611> but I need to confirm that this is the one that you will use.

The staff report and documents to the Hearing Examiner are similar to what was provided to the Planning Commission with some differences. You can access the information here: <https://ci-bainbridgeisland-wa.smartgovcommunity.com/PermittingPublic/PermitDetailPublic/Index/c515354d-546b-4626-ac50-acdc0021bdfc?conv=1>. Scroll down to "Notes" and click on the link next to "HEX file- Exhibit packet".

Thanks,

Ellen

Lara, has the invitation for the hearing been sent out yet? If so, could you please resend as I have not received it. I assume the staff notes for the 5/27 PC meeting are the same as for the Hearing? Thanks!

stay safe!
