Subject: Little Manzanita Bay Dock Proposal
Date: Saturday, March 14, 2020 6:21:01 PM

To Whom it May Concern,

We live across Little Manzanita Bay from the 240 foot dock proposal. We are opposed to building the large dock with two boat lifts. We are a family with children that enjoy the benefit of having a quiet peaceful bay for them to explore. There would definitely be a negative impact from building a large boat dock and it would disturb the natural beauty and wildlife of this pristine area. Please consider the long-lasting effects this would have.

Thank you for taking the time to consider our opinion on this matter,

The Kibler Family
