Subject: requesting adjustment to Planning Commission agenda for June 13 meeting

Olivia and the Planning Commission:

I'd like to request that you alter the agenda of the June 14 Planning Commission slightly in order to permit a more balanced discussion of the Winslow Hotel.

I request that you schedule public comments immediately after the applicant presentation and before the Planning Commission review. This will permit the Planning Commission to include input from the public in their review.

Please let me know that you have received this message and if you will accommodate this request.

Thank you very much.
