Subject: proposed hotel/restaurant

Ms. Sontag

I want to register my opposition to the proposed hotel/restaurant/conference venue on the western edge of downtown Winslow. As a 20year resident on Grow Ave. there have been constant issues with traffic to and through downtown Winslow. This new development will only exacerbate the traffic issue not to mention burdens on other infrastructure.

It makes no sense to allow a conference center right on the edge of and around a mostly residential area. This will increase both auto and foot traffic and reduce the quality of life for all residents who have to access downtown Winslow. It will require a major upgrade in the traffic infrastructure including a traffic light that directs pedestrian traffic at Winslow/Madison intersection. None of my neighbors I have talked to are in favor of such a change.

I strongly urge you not to allow this to happen to our town.
