It is discouraging to see COBI spend the bulk of their time discussing the need for protecting the environment only to turn around and allow ongoing destruction of same. A developer has been a poor steward of the wetland on his property at Lytle and Beck road and he now wants to build an additional dwelling on the property which will further cause damage to the fragile ecosystem. Not only that, this disregard has placed burdens on some neighbors who have been directly affected by the deterioration of the creek, leading to flooding.

I urge you to enforce the codes in existence to protect the fragile ecosystem.
