I ask the Planning Commission to approach your review of this project from a problem solving perspective and to be as creative and flexible as possible within the rules to support getting additional affordable housing units for Bainbridge. This project should be evaluated on its merits, not colored by past community objections to the 2014 Visconsi project approval.

I believe something will be developed on that property with the associated problems/concerns about "development" (traffic, noise, etc). I prefer getting more affordable housing as an important community benefit for those development impacts.
