Subject: Madrona Schools CUP

Hello,

I'm writing in support of the Madrona School Conditional Use Permit for their new campus at Lowery Farm. My family has been a part of the Madrona school now for four years, and I've been so impressed with the school's dedication to its students and its community. They teach and advocate for positive involvement, immersive learning and a holistic approach between the environment and the students love of learning. The farm has been a wonderful and integral part of its curriculum over the last couple of years, having the children and the community involved in its teaching through real life experience in gardening, woodworking, animal care, and the open space of the imagination. For the school to be able to have its new campus on these grounds would be a great learning experience for all the children and an enduring asset to the community of the island for years to come.

Please consider their application for this permit favorably. Thank you for your time in reading this letter.

Sincerely,

- Nate Manny
